**Proverol**

heat resistant food safe lubricant

**technical data sheet**

**lubricants**

**Proverol** is a high quality, food safe, moisture resistant synthetic liquid lubricant specifically formulated for bakery prover and cooler chains.

**Proverol** is used in bakeries and other industries where effective lubrication in a high humidity environment is required.

**TYPICAL PROPERTIES**

Appearance:	Clear straw coloured liquid
Specific Gravity:	0.86 approx.
Viscosity:	470 cPs at 25°C
Flash Point:	>110°C
Application Temperature:	10°C - 160°C
Operating Temperature:	Up to 180°C

**APPLICATION**

**Proverol** is used for the lubrication of bearings, surfaces and chains in Provers and Coolers.

**Proverol** is best applied by automatic applicator during normal operation of the equipment. This ensures maximum penetration and minimises wastage of product.

**Proverol** complies with the requirements of FDA 21 CFR 178.3570 - Lubricants with incidental contact.

**PACKAGING**

**Proverol** is supplied in 21kg net HDPE containers.

(OPA2/F2)
